01 PROFILE

I am a results-driven and detail-oriented developer with a solid foundation in HTML, CSS, JavaScript, Reactjs/Nextjs. With proven ability to translate design concepts into functional and visually appealing websites. Adept at collaborating with cross-functional teams to deliver high quality projects within tight deadlines. Passionate about staying updated with the latest web technologies and eager to contribute to innovative and user-centric web development projects.

02 EXPERIENCE

FRONTEND DEVELOPER

ALLFORONE - Crypto Website for Startup Coin   **April 2024 – Sept. 2024**

Overview: I developed the frontend of a crypto website for a startup coin, providing users with information about the coin, its features, and market performance.

Objective: To create an engaging and informative website that effectively communicates the value and potential of the startup coin to potential investors and users.

Achievements: I successfully launched the website, receiving positive feedback from the startup team and initial users for its design and functionality.

Technical Skills:

Front-end: ReactJs, HTML5, CSS3 (Tailwind CSS)

Tools: Git, GitHub, API Integration, EtherJS, Chart.js

O3 PROJECTS
